

SentriLock Joins More than One Billion People in 190 Countries Taking Action on Earth Day 2010

SentriLock Goes Green in Celebration of Earth Day 2010

([PRWEB](#)) May 3, 2010 -- Forty years after the first Earth Day, the world is in greater peril than ever. While climate change is the greatest challenge of our time, it also presents the greatest opportunity – an unprecedented chance to build a healthy, prosperous, clean energy economy now and for the future.

SentriLock, an industry leader in property access control systems for REALTORS® and their clients, has made a serious commitment to the environment and the spirit of Earth Day 2010 in a number of areas:

- The company's flagship product, the REALTOR® Lockbox NXT, provides ready authorized access to the property keys for vacant and for-sale properties across North America. This saves needless trips to and from the property, sparing gas, carbon emissions and stress on roads.
- REALTOR® Lockbox NXT is qualified as "Reduction of Hazardous Substances" (ROHS) compliant. The production of the lockbox, built in the USA, restricts the use of specific hazardous materials found in electronic products.
- SentriLock has joined forces with the Boston Bike Share Program and several of the country's other leading programs. Local residents are encouraged to use these bikes rather than drive for the benefit of the environment. SentriLock lockboxes are used to provide secure, authorized access to the bike's key lock.
- SentriLock utilizes the services of DocuSign, a comprehensive e-signing solution that expedites the signing process and ensures compliance with established ESIGN and UETA requirements. Since the contracts are digitally signed and transmitted, the company saves overhead and printing costs and reduces the need to transport documents via express mail.

Christine M. Todd, CEO of the Northern Virginia Association of REALTORS® said: "As both a client and, also, a member of SentriLock's Board of Directors, we applaud their efforts to help both the environment and to positively impact the productivity of working REALTORS® in North America on a daily basis."

About SentriLock

SentriLock is majority owned by the National Association of REALTORS® and is a proud partner of the REALTOR® Benefits Program. The company's REALTOR® NXT Electronic Lockbox System is known for its reliable and secure technology and outstanding customer service, rated tops in the industry for the past three years by two independent market research studies. The SentriLock System currently has more than 500,000 lockboxes in use by 250,000 agents from over 210 different Boards, Associations and MLSs in the United States and Canada. SentriLock's Customer Care Team provides world-class support seven days a week, exclusively from its headquarters in Cincinnati, Ohio. www.SentriLock.com or www.SentriLock.ca
